

"Earth Observation for Social & Environmental Impact"

REMOTE SENSING BIODIVERSITY EXPERT

Full-Time

COMPANY

Space4Good is an innovative social enterprise utilising earth observation technology for social and environmental impact. Combining remote sensing, GIS and artificial intelligence, we map, analyse and model complex ecosystems and support leading organisations and institutions on topics such as regenerative agriculture, tropical agroforestry management and humanitarian aid. By doing so we help impact makers on the ground to make more informed decisions, improve operational efficiency, create data-driven transparency and unlock new revenue sources.

GOAL

Deliver remote sensing and project management expertise for conservation / biodiversity oriented projects.

RESPONSIBILITIES

Several projects require both your expertise in remote sensing and project management as we have started collaborating with many exciting organisations such as Amnesty International, Rabobank, the World Bank Group, X-Prize along with smaller social enterprises. As such, you will be strengthening our team along the whole project life cycle from initial meetings with new partners to identify important requirements, to feasibility assessments, project organisation, management and delivery.

Your responsibilities will be both organisational and operational. Together with your other team members you will plan, develop and implement geospatial solutions. You will be particularly involved in our work on nature conservation and restorative agriculture and lead new projects on biodiversity monitoring as well as soil health.

PROFILE

We are looking for somebody who has:

- +3 years of professional experience in remote sensing, GIS and project management
- Expertise in nature conservation, biodiversity monitoring and preferably soil mapping
- Programming skills in Python as well as applied knowledge of EO analytics
- Fluent in English
- Available on a full-time basis working regularly from our office in The Hague
- Good problem-solving skills with a strong hands-on and proactive, can-do attitude
- Ability to work independently and among diverse team members
- Passion for social and environmental impact!

CULTURE

Space4Good is a registered B. Corporation following an impact-first principle. We achieve our mission of using earth observation for social and environmental impact through service leadership which leads to a fulfilling work environment of trust, initiative, collaboration and customer orientation. We operate both project and service-based creating opportunities to engage in challenging state-of-the-art technical innovation as well as globally scalable and affordable applications. We aim to engage with partners and clients with the highest impact potential, who we support through small, dynamic team structures and iterative development cycles embracing fun and professionalism at the same time.

CONTACT

In return we want to offer you this unique opportunity of professional and personal development while not only leaving a mark in society but also at the very core of our company DNA! Sounds like your dream job? Tell us why and attach your CV to careers@space4good.com.
